

# YOUR PADDLE STROKE JUST GOT EASIER

The new Torque™ from Ocean Kayak is unlike any other kayak on the market. Designed around the Minn Kota motor and its innovative Maximizer™ technology, the Torque puts all of the power right at your finger tips. With infinitely variable speed control you can troll for fish at your own pace. Fishing in tight spots? Don't worry, you can hit reverse and your ability to maneuver just got easier. And, if you'd rather paddle, simply remove the motor, drop in the skeg, grab a paddle and you're all set. The Ocean Kayak Torque is so much fun you may even put your fishing pole down and just sit back to enjoy the ride.

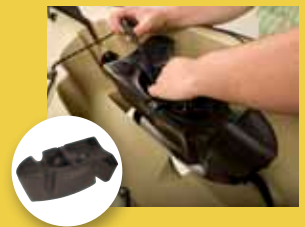

#### Maximizer Technology

This controls and optimizes power to extend the battery life. You'll stay on the water up to five times longer on a single charge. The motor also features infinitely variable speed in both forward and reverse.

#### Plug & Play

The motor is easy to install and easy to remove for transport and storage. The skeg plug can be put in place of the motor for motorless paddling. The motor unit floats.

SPECS: Length 13' 10" [4.2 m] | Width 29" [73.7 cm] | Weight with motor 86 lbs [39 kg] | Max Speed 5.5 mph [8.85 kph]

\*Use sealed lead acid or absorbed glass mat battery - Group 24 size or smaller. Battery not included.
